

Does your work involve improving the environment or traffic in your city or ministry?

Funded by the European Commission

Does your work involve improving the environment or traffic in your city or ministry?
Are you operating, planning, considering, investigating a Low Emission Zone, Congestion Charging, urban road user charging, access regulation, vehicle access restriction, lorry ban etc?
Then the **CLARS Platform** is for you.

The EU Commission has provided **FREE** membership for the CLARS Platform (**C**harging, **L**ow **E**mission **Z**ones, other **A**ccess **R**egulation **S**chemes) to help support public authorities with these schemes, as well as provide a public website to provide vehicle drivers and operators with information on the schemes.

This Platform allows best practice to be shared, to make schemes more successful and easier to implement. If you are planning a scheme, you do not need to re-invent the wheel.

The **FREE** Membership provides access to:

- 1) A large collection of relevant information, guidance, advice and links
- 2) Ask questions on of the secretariat and other members.
- 3) A forum to ask questions, discuss issues, post information
- 4) Period emails with news, updates and issues
- 5) The EU is planning guidances for LEZs and other access regulations. CLARS would be one of the methods used for the informal consultation before introducing it.
- 6) The Platform is here to provide what you need, so let us know what else you need!

We have collated a large amount of Information, and set it out to be easily navigated. The information includes:

- EU draft voluntary guidance on LEZs
- Collated overview reports
- Support to set up or investigate schemes
- Best Practice support
- Reported Scheme Impacts
- Case studies and feasibility studies
- Euro VI/6 emissions testing from around Europe
- Cleaner Construction Schemes
- Noise LEZ funding
- and much more!

The website is in English, with automatic translation that may be able to help you. Between us the secretariat can speak, read and write English, German and French.

We can also help you provide information on LEZ or traffic schemes in different languages. Link to the relevant page on our website (eg www.urbanaccessregulations.eu/london), and the information is available in every European language.

If you or colleagues are interested in membership, please [register with us](#). Membership is available to public authorities only, so we will review and approve all registrations, then give you details on how to access the members website and secretariat.

The Platform is run by Lucy Sadler, with over 20 years experience in air quality, including as the head of air quality for the city of London and 15 years experience of Low Emission Zones.

Any queries, please contact [Lucy Sadler](#), CLARS Platform, Sadler Consultants Ltd, alert@urbanaccessregulations.eu, phone: +49 (0) 7641 9375 335
